FOR IMMEDIATE RELEASE
17 May 2011

Free A4 Document Scanner

Allied Images is offering a free Plustek MobileOffice S400 A4-sized document scanner with every new purchase Colortrac SmartLF scanner. Alternatively, customers can get a SmartOffice PS286 plus or a SmartOffice PS406 at half-price.

Northampton. For a limited period, Allied Images is offering a free Plustek MobileOffice S400 A4-sized document scanner with every new purchase Colortrac SmartLF scanner. To take advantage of the offer customers must purchase a new Colortrac SmartLF wide format scanner. All new purchase Colortrac SmartLF scanners qualify. With each scanner purchased customers have the option of taking a Plustek MobileOffice S400 A4 sheet-fed document scanner, MSRP £110, absolutely free, or alternatively, they can get a SmartOffice PS286 plus A4 desktop scanner or a SmartOffice PS406 A4 high-speed scanner at half price.

SmartLF range goes from the 24" wide Ci24 right up to the super-wide Gx+56 with a 56" scan width. SmartLF Ci24 is a compact lightweight production scanner ideal for architects, construction, building services, facilities management, technical & CAD drawing and many similar applications. The super-wide SmartLF Gx+56, which can scan an A0/E-size document in landscape format, is ideal for specialist reprographics, copy shops, graphics design, mapping, GIS, AEC, aeronautics and automotive. SmartLF range also includes Ci40, Cx40, Gx+28 and Gx+42 scanners. To choose the SmartLF scanner that best suits your needs please look at the selection now at <http://www.allied-images.com/colortrac>.

Plustek's MobileOffice S400 scanner mates perfectly with a laptop as it is power-cable free using a USB cable for both data and power. And, it is rugged enough to be used in any application that needs an easily transportable, mobile scanner. MobileOffice S400 has an MSRP of £110 but is available absolutely FREE.

Plustek's SmartOffice P286 Plus, is ideal for office use small and medium enterprises offering duplex scanning, automatic document feeder, scanning speed of up to 25 sheets/minute and the ability to scan plastic cards such as ID cards. PS286 Plus has an MSRP of £385 but is available at an offer price of £192.50.

SmartOffice PS406 offers a powerful scanning solution featuring speeds up to 80 images per minute and a daily duty cycle of up to 4,000 sheets. PS406 delivers outstanding price/performance in a compact, desktop scanner. With an MSRP of £510 users get these benefits at an offer price of £255.

Steve Morin, Allied Images MD, said that “Plustek MobileOffice and SmartOffice scanners are excellent small document scanners to use on their own or with other applications including document management solutions such as M-Files. Using M-Files all incoming paper documents be they invoices, orders, letters or other material can be scanned and stored securely. They can then be shared distributed for action via a workflow. This improves the overall office performance by reducing filing cabinet space needed, preventing loss of documents, speeding document searches, ensuring speedy forwarding for action or approval and providing a secure paper-trail (history) for compliance.” More information on M-Files is on the Allied Images web site at <http://www.allied-images.com/m-files>.

/Ends

About Colortrac

Founded in 1989 and based in St Ives, Cambridgeshire, UK, a region of British excellence in science and technology, Colortrac Ltd is the leading innovator in professional wide format scanners and image acquisition software solutions. As the first manufacturer to recognize the individual merits of CIS and CCD image sensor technology, its fifth generation of SmartLF scanners and software are uniquely positioned to meet the demand for both price and performance across the full spectrum of scanning applications. These range from the demanding Graphics Arts market to practical, productive CAD, GIS, EDM and FM technical document scanning. Colortrac Ltd has offices in Beijing and Suzhou, P.R. China, in Chantilly, Virginia, USA and in Yokohama, Japan.

Colortrac is a fast growing company with many new technically innovative patents created by their Research and Development departments. It was the first wide format scanner manufacturer to use both Charge Coupled Display (CCD) and Contact Image Sensor (CIS) technologies in innovative ways, creating unique customer solutions to simplify their scanning problems.

Further information about Colortrac's products can be found at: www.colortrac.com

About Plustek

Respected as one of the world's leading image solution providers, Plustek manufactures and delivers high-quality scanners and other imaging products to buyers worldwide, reaching millions of consumers. In business since 1986, Plustek began as an original equipment manufacturer (OEM) for many large companies, creating an innovative array of products including: scanners, IP cameras, servers and imaging-related devices. Through a combination of design innovation and strict attention to usability and manufacturing quality, Plustek has grown to become one of the largest image solution providers in the world. In addition to supporting its sales offices worldwide, Plustek's state of the art factories and offices are able to provide just-in-time manufacturing and engineering expertise on a contract basis. This combination of skill sets allows Plustek to introduce outstanding new products to the market with superior design, support and with unrivalled after-sales support and service.
