

Specialised A1 Flatbed Scanning Service

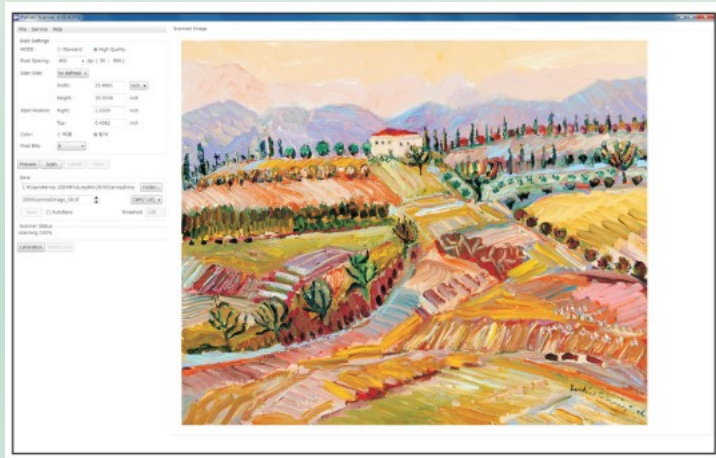

Traditionally difficult to scan Documents or Artwork can now be easily captured as a high quality digital image using our Kurabo A1 flatbed scanner.

The scanner doesn't move or transport the artwork in any manner, making it ideal for valuable artwork, rare antiquities, manuscripts etc. Data can be saved onto various storage devices. Ideal for securely archiving originals or for capturing for reproduction printing.

We capture your fragile documents and artwork with uncompromising image quality and professional standards with the Kurabo K-IS-A1FW flatbed colour scanner.

The Kurabo scanner features a 24"x36" (914mm x 609mm) flatbed scanning area, giving the flexibility to scan just about any type of original by simply placing it directly on the scanner bed.

It also features advanced CCD sensor technology, ensuring picture-perfect imaging performance all the time with an optical resolution of 400 dpi, and can scan a 24"x36" size document within 20 seconds! The Kurabo K-IS-A1FW is perfect for all imaging needs, from textiles, fragile historical records, fine art and other delicate originals. The Kurabo scanner can capture a wide variety of documents and objects fast, accurately and efficiently
